Price including gst	\$220.80	\$0.33	\$0.66	\$0.99	\$1.33	\$1.66
Price excluding gst	\$192.00	\$0.29	\$0.58	\$0.86	\$1.16	\$1.44

With regards to feeding amounts, for a horse of 15-17 hands we recommend 50 - 80ml per day for general health and maintenance, healthy shiny coats etc. For treating a specific inflammatory condition (eg skin allergies and irritations, joint problems, cracked hooves etc) then increase this to 100 -120ml per day, and when using the oil as a fat source of energy for performance between 100 and 150ml per day. 1 cup of oil is equivalent to approx 4 cups of grain. For miniature horses, yearlings and ponies, we recommend feeding around 30-40ml per day for general maintenance.

DAILY COST CALCULATOR - EQUINE FLAX SEED FLAKE

DAILY COSTS SHOWN ARE PER HORSE PER DAY
